

GLOVES SIZING

To check your glove size measure your fencing hand at its widest point (just below knuckles) in" (excluding the thumb), then add half an inch to the measurement to establish your glove size. For example if your hand measures 9" around its widest point (excluding the thumb). You would add half an inch to establish your glove size as 9½. To assist our customers who are using metric measurements: one inch = 25.4 mm.

Some of our gloves are sized as XS, Small, Medium, Large and XL. The chart below show how the numbered size equate to the standard sizes.
